SPONSORSHIP PROPOSAL

Seeking Funds for **CATALYST 2027**: Conference on AI, Technology, and Youth-Led Scientific Thought

About the Event

EVENT OVERVIEW

Date: April 10, 2027

CATALYST is a planned one-day research conference organized by DAIR (Dublin AI Research), a student club at Dublin High School. It will bring Bay Area high-school students together to present research in artificial intelligence, machine learning, computer science, engineering, and related technology fields. The program is planned to include student presentations, workshops, guest speakers, and judged research awards.

Our Mission

WHY WE EXIST

Our mission: Make student-led technology research more accessible and help students turn their interests into projects they can develop and present.

Why Sponsor Us?

- Support access to research for students across the Bay Area
- Connect with emerging and innovative high school talent
- Reach a tailored high school research community
- Encourage student innovation, supporting young researchers ideas
